
ACKNOWLEDGMENTS

The 2002 Annual Meeting of the AAPM could not have been organized without the help of the many people who have contributed their individual talents to this meeting, and who have dedicated themselves over the past months to the development of a superior scientific and educational program. On behalf of the Scientific Program Co-Director, Michael Herman, Ph.D., the Education Program Director, Eric Klein, M.S., the Education Program Co-Director, Joel Gray, Ph.D., the Local Arrangements Committee Chair, Ervin Podgorsak, Ph.D., and the members of the Meeting Coordination Committee, I would like to offer our heartfelt personal thanks to those who have contributed to the success of this year's meeting in Montreal. In addition, I want to thank James Balter and Gary Ezzell who were the track chairs for therapy.

Whatever our individual roles might be this year, all who attend the Montreal meeting are the direct beneficiaries of the hard work and long hours of preparation that are contributed by the Abstract Reviewers, Invited Speakers, Symposia Moderators, Session Chairs, Continuing Education Course Directors, and members of the Local Arrangements Committee towards a successful and informative meeting. Therefore, on behalf of the members of the AAPM and COMP, I would like to express our deep debt of gratitude to these individuals.

I particularly want to acknowledge the entire AAPM Headquarters staff, who helped in every aspect of the meeting. From processing abstracts to ensuring proper arrangements with the hosting city, the Headquarters staff is instrumental in the success of the Annual Meeting. In particular, I want to acknowledge the incredible effort given by Angela Keyser, Lisa Rose Sullivan, Nancy Vazquez, and Michael Woodward and his staff. Their contributions are considerable and very much appreciated. Their work makes this meeting run smoothly and efficiently, ensuring the collegial atmosphere that we have come to associate with the Annual Meeting.

Andrew Maidment, Ph.D.
