ACKNOWLEDGMENTS

The 2003 Annual Meeting of the AAPM could not have been organized without the help of the many people who have contributed their talent and time to make sure this program meets the scientific and educational needs of medical physicists. On behalf of the Scientific Program Co-Director, Ehsan Samei, the Education Program Co-Directors, Eric Klein, and Perry Sprawls, the therapy track organizer Gary Ezzell, the Local Arrangements Committee Chair, Steve Goetsch, and the members of the Meeting Coordination Committee, I would like to offer thanks to everyone who has contributed to the success of this year's meeting in San Diego by dedicating themselves over the past months to the development of a superior program.

Hundreds of people participated in creating the content of this meeting, as Abstract Reviewers, Invited Speakers, Symposia Moderators and Directors, Session Chairs, Continuing Education Course Directors, Abstract Authors and Members of the Local Arrangements and Meeting Coordinating Committees. On behalf of all the members of the AAPM, I would like to express our gratitude to each of these individuals.

No annual meeting can go on without the incredible effort put forth by the entire AAPM Headquarters staff. This event is the single biggest activity of the AAPM each year. Significant effort goes into countless details to ensure a smooth and highly successful Annual Meeting for the thousands of people who attend. In particular, I want to acknowledge the unending effort given by Angela Keyser, Lisa Rose Sullivan, Nancy Vazquez, Michael Woodward and his staff and all the support they receive from everyone else at headquarters throughout the year relative to the annual meeting. The membership appreciates these contributions very much.

Michael Herman
Scientific Program Co-Director
